

Martin & Marie Smith

Full time Industrial Cleaner/ Ex Care Asst

Below is our cheque for the last 28 days,

Marie and I joined this business to earn an extra £50 a week just to pay for the ever increasing bills. But as you can see from our cheque below it is a bit more than £50 a week, more like £150.

We have been in Kleeneze for about 18 months and are really enjoying it. Being in Kleeneze is not like having job, you pick your own hours and you don't have a boss. Marie has now been able to quit her job as a care assistant and I have started to do less hours at work. This is our business and what we earn is for us and not for a company.

We both think it is a magical business to be in, So why not give it a go? what have you got to lose?
